

**“We Make the Right Connections!”**

**Voice Data Solutions introduces a software application customized “specifically” for North Carolina ABC Boards**

## **Voice Data Solutions LBD Order Application makes great strides in customer service...**

Greatly improve customer service for your liquor by the drink customers. Using our LBD Order Application they can now place an order using the Internet or telephone keypad.

Developed *exclusively* for the North Carolina

*Some of the key benefits to this system include:*

- ❑ *An extended order window. Orders can now be placed 24x7. A pick list is generated automatically as a result of the order*
- ❑ *The ability to improve employee productivity by reducing the number of manually entered orders*
- ❑ *Reducing the duplication of order entry*
- ❑ *Improves order entry accuracy because the customer updates the order entry system directly via the Internet or telephone keypad*

## **Two-way access to the ABC Board LBD Order Entry Application**

- (1) WWW.DataTalkOrderEntry.com**
- (2) Assign toll-free number**

WWW.DataTalkOrderEntry.com allows customer created profiles for automated on-line, web-based ordering.

**No Internet access – No Problem.** Just dial the assigned toll free number and follow the automated voice prompts to complete your voice-activated orders.

***You are now on your way to error-free ordering.***

***It's just that simple*** – choose one of the two easy order-entry options: **Internet** or **voice-activated phones**.
