## DataTalk™ Academic

**CC Payment Service** is an established system that benefits the students as well as the university in the following ways:

- Offers students a payment alternative for their tuition and other fees.
- Enables users to “finance” payments if they do not have the cash.
- Reduces dependency on the mail and/or automobile for payment.
- Reduces administrative costs.
- Increases cash flow for the university by speeding up the payment process.

CC Payment Service is easy and convenient and can be accessed by Internet or Phone.

### ***By Internet:***

The user accesses our CC Payment web site and is prompted by the system to enter their name or other appropriate identifier.

Our system guides the user through each step from beginning to end.

Users are informed that there is a nominal convenience fee associated with the payment. The user is asked if they wish to continue the transaction. If so, the user is asked to enter their credit card information, the authorization is processed and the transaction is completed.

### ***By Phone:***

The user calls the advertised phone number and is prompted to enter their student ID or other appropriate identifier.

Our system guides the caller through each step from beginning to end.

Callers are informed that there is a nominal convenience fee associated with the payment. Upon their acceptance of the fee, they will enter their credit card information, the authorization is processed and the transaction is completed.

CC Payment Service produces reports on daily activity and sends them to the appropriate personnel.

DataTalk Academic frees up your resources to pursue other essential duties.

Voice Data Solutions can host your credit card payment solution at our secure site at no cost to you.

If your preference is to have our application on your premises, with real-time update of your records, please call us for a quote.

We accept Mastercard, Discover and American Express credit and debit cards.

For inquiries, call or email our sales office.

Voice Data Solutions specializes in customization and solutions for our customers.
