

*Paying taxes is easy!*

DataTalk™ Revenue is a proprietary Voice Data Solutions application that enables municipal government agencies to collect revenues via credit card from citizens and businesses over the telephone or Internet. Our secure system hosts this application with no cost to the city, county or state agency.

Optional eChecks also available.

# DataTalk™ Revenue

**CC Payment Service** is an Environmentally friendly system that benefits taxpayers as well as revenue collectors in the following ways:

- Minimizes or eliminates PCI/DSS requirements for agency.
- Offers users a payment alternative for their taxes and other fees.
- Reduces dependency on the mail and/or automobile for payments.
- Reduces administrative costs for government agencies.
- Increases cash flow for agencies and speeds up the payment process by providing multiple payment vehicles:
  - Web
  - IVR
  - Over the Counter
  - eCheck

**CC Payment Service** is a Hosted Solution.

- Web and IVR located in remote secure facility.
- Unique URL for WEB payments.
- Unique toll free phone number for IVR payments.
- Over-the-Counter / Card swipe uses hardware encryption. No cardholder data enters onsite systems.
- Bill data entry validated to minimize errors.
- Daily activity reports sent electronically to specified users.
- Real-time administrator access to CC Payment Service Data base to verify payments.
- Optional real-time query and update to Customer data base to ensure correct amount is collected.
- Optional DMV stop removal.
